

HEYWARD & JPS INDUSTRIES

Heyward Incorporated is pleased to announce representation of JPS Industries in the Carolinas for the municipal and industrial wastewater markets.

JPS provides heavy-duty, hand-sewn baffle curtains for a multitude of wastewater treatment objectives, as well as lagoon sidewall liners, and the unique T-Rex floating lagoon cover system. JPS can provide detailed computer modeling of existing treatment systems to support baffle design recommendations, and offers long-term service contracts for all of their products.
