

Join AMTA and AWWA to explore how the latest developments in membrane technology can enhance water reliability and quality. Each year the conference reveals new directions in water and wastewater treatment technologies, desalting and membrane bioreactor applications.

Who attends MTC?

- Consultants and Contractors
- Designers
- Professors and students
- Federal, state and municipal management and executives
- Local, state and federal regulators
- International audience
- Manufacturers, suppliers and distributors
- Operators
- Scientists and researchers
- Water and wastewater engineers
- Water utility plant management and executives

New this year! Exhibit Hall Education Sessions

These Exhibit Hall Education Sessions encourage attendees to visit participating exhibitors in a coordinated program to learn and earn CEUs/PDHs. Attendees will gather at participating booths at designated times for the sessions, and exhibitor representatives will each have 15 minutes to give their presentation. Attendees earn CEUs by attending!
