

# DO YOU NEED BETTER FLOW DATA?

## TIRED OF CHECKING METERS AND MANAGING FLOW DATA?

**Heyward Incorporated is the Carolina's leader in  
Collection System Flow Monitoring Equipment used  
for Inflow/Infiltration and Capacity Studies.**

Heyward Incorporated and Hach Flow have partnered to support the collection system flow monitoring demand in the Carolinas. Hach Flow is a combination of the former Marsh-McBirney and American Sigma businesses, with a depth of experience unparalleled in the industry. Locally in both North and South Carolina, there are hundreds of active Sigma and Flo Dar installations.

Heyward offers solutions for collection system flow monitoring needs, ranging from manual to flow meters delivering real-time data.
